### 7 Middletown

231 North Breiel Blvd. | Middletown

### 8 Western Hills

2841 Boudinot Ave. | Cincinnati

## Imaging services available include:

- **Carotid Intima Media Thickness (CIMT) screening:**

For coronary artery disease calculation based on the thickness of the carotid arteries.

- **Echo Ejection Fraction (EF) Screening:**

The percentage of the blood expelled from the heart with each beat is used to determine the need for rhythm disturbance treatment.

- **Echo for Athletes:**

Screening young students or athletes for unsuspected heart abnormalities.

- **Echocardiography:**

A comprehensive exam of the heart, including analysis of valves, wall motion and blood flow.

- **Graded Exercise Test: (GXT or stress test)**

A comprehensive check for diagnostic purposes that includes an electrocardiogram and physical endurance on a treadmill.

- **Multiple Gated Acquisition scan (MUGA):**

A global assessment of cardiac wall motion and the most accurate ejection fraction calculation available.

- **Stress Myocardial Perfusion Imaging (SPECT or nuclear stress test):**

A comprehensive check of the myocardial blood perfusion with wall motion and ejection fraction evaluation.

- **Vascular ultrasound diagnostics:**

Includes ankle brachial index, carotid and abdominal aorta viewing for atherosclerotic blockages.

## Benefits to your practice and your patients:

- The ease and comfort for patients undergoing testing in a familiar setting
- Outstanding clinical quality from one of this region's most trusted names in cardiovascular care
- Quick interpretation from specialized, board-certified physicians
- On-site technologists and nurses who are licensed, highly trained and responsive to the needs of both patients and physicians
- Access to clinical trials for patients
- Continuous availability of the latest in cardiovascular imaging—We monitor evidence-based research for you to ensure the best technique is applied for each individual case.

The Christ Hospital

Our board-certified cardiologists and vascular surgeons interpret the imaging tests for all testing centers. These specialized physicians interpret a high volume of tests, meeting our rigorous quality and certification standards. Our echocardiography interpreters all have level 3 training, the highest available, in echocardiography; and board-certified vascular surgeons utilizing digital technology read all vascular diagnostics. Also, you can count on 24-hour turnaround and interpretation.

Testing is conducted by licensed, Advanced Cardiac Life Support (ACLS) certified, registered nurses and licensed, certified nuclear medicine technologists.

**To schedule an appointment, please call 513-585-2668.**

*We also have prescription forms that can be faxed in. We will then call the patient and schedule the appointment for you!*
