

Gala COVID-19 Vaccination Requirement

The Christ Hospital Health Network is the leading healthcare provider in the Tristate. It is our responsibility, as an institution devoted to health and healing, to protect the well-being of our community.

Given our clinical mission, and because your safety is our number one concern, we are requiring that all attendees at our 2021 Gala on October 2 be vaccinated against the COVID-19 virus. This includes all patrons, workers, vendors, entertainers, and everyone who enters our private event that evening. Vaccinations will be verified.

We are committed to the health and safety of our community and it is incumbent upon us to do everything we can to keep our patients, their families, our staff, and the community safe. Science, data, and evidence-based medicine are the lenses through which we make our decisions.

Thank you for supporting The Christ Hospital Health Network and for endorsing our position with the vaccine. If you or anyone you know needs a vaccine, please visit our website to schedule an appointment at one of our convenient locations.

The more people are vaccinated, the safer our world will be.
