

PGY1 Residency Program

PGY1 residency programs build upon Doctor of Pharmacy (PharmD) education and outcomes to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete PGY1 residency programs will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy (i.e., BCPS), and pursue advanced education and training opportunities including postgraduate year two (PGY2) residencies.

Program Overview

PGY1 residents will be an integral part of the medication use process at The Christ Hospital. The residency will serve to help the resident develop a secure understanding of the clinical, distributive, and administrative aspects of hospital pharmacy. Through a variety of required and elective learning experiences, residents will gain confidence to effectively function as a member of a multi-disciplinary team. Additionally, the program will focus on developing and refining the resident's writing, presentation, teaching, research, and leadership skills.

Thank you for your interest in our program!

You are embarking on an exciting time as you search for a residency program that suits you best. At The Christ Hospital, you will encounter a residency experience that is individualized and structured around you. Our preceptors are dedicated clinicians with an enthusiasm for residency education. You will be challenged to strengthen your clinical knowledge, gain research experience, and develop various skills such as leadership, communication, and time management. If you have any questions, please contact us.

Best of luck in your residency search!

About The Christ Hospital

Our Vision

Be a national leader in clinical excellence, patient experience and affordable care.

Our Mission

Improve the health of our community and create patient value by providing exceptional outcomes and the finest experiences, all in an affordable way.

For more than 130 years, The Christ Hospital has been dedicated to providing the best, most compassionate care for our community. A longstanding beacon in the community, The Christ Hospital is a 555-bed, not-for-profit acute care facility offering numerous specialty services at our main campus located in historic Mt. Auburn, just north of Downtown Cincinnati. Together we are healing, comforting and caring for patients and their family members. We are driving innovative research, giving patients new hope. With innovation, creativity and technical expertise, we are making sure that The Christ Hospital remains at the forefront of medical advances across the Tristate, the nation and the world for years to come.

The Pharmacy Department is an integral component of the hospital utilizing the latest technologies to provide round the clock pharmaceutical care designed to enhance quality, promote safety, and ensure compliance with regulatory agencies. The pharmacy model employs a combination of centralized, decentralized, and satellite services. Clinical pharmacy services include ambulatory care, antimicrobial stewardship, cardiology, critical care, emergency medicine, internal medicine, oncology, transplant, palliative care and pharmacogenomics.
