

The Christ Hospital Joint & Spine Center

THE FIRST OF ITS KIND IN OUR REGION

We know your goal is to get healthy and get back to doing what you love as fast as you can. That's why we've built a center right here in Cincinnati to help you do just that, where the area's most renowned orthopaedics and spine physicians will coordinate your care every step of the way.

The Center redefines the way care is delivered for patients with joint and spine disorders; it was designed around their experiences, from the time of their first consultation until their last day of physical therapy.

We've always had the doctors, the programs and a five-star healing experience. Now we have them in a new home—all under one roof—with the finest amenities and best technologies for our patients.

An Unparalleled Patient Experience

- 87 private rooms specifically designed to meet the needs of joint and spine patients
- 12 surgical suites designed under the guidance of our expert surgeons to provide the best outcomes
- Abundant natural light to promote healing and wellness
- Panoramic views of the Cincinnati skyline and beyond
- Outdoor spaces and rooftop gardens for respite and rehabilitation
- **And much more!**
